Social Entrepreneurship and Microfinance-Jonathan H. Westover 2013
Good Chinese Wife-Susan Blumberg-Kason 2014-07-29 A stunning memoir of an intercultural marriage gone wrong When Susan, a shy Midwesterner in love with Chinese culture, started graduate school in Hong Kong, she quickly fell for Cai, the Chinese man of her dreams. As they exchanged vows, Susan thought she'd stumbled into an exotic fairy tale, until she realized Cai—and his culture—where not what she thought. In her riveting memoir, Susan recounts her struggle to be the perfect traditional "Chinese" wife to her increasingly controlling and abusive husband. With keen insight and heart-wrenching candor, she confronts the hopes and hazards of intercultural marriage, including dismissing her own values and needs to save her relationship and protect her newborn son, Jake. But when Cai threatens to take Jake back to China for good, Susan must find the courage to stand up for herself, her son, and her future. Moving between rural China and the bustling cities of Hong Kong and San Francisco, Good Chinese Wife is an eye-opening look at marriage and family in contemporary China and America and an inspiring testament to the resilience of a mother's love—across any border.
Adobe AIR (Adobe Integrated Runtime) with Ajax-Larry Ullman 2009-06-02 AIR (Adobe Integrated Runtime) is Adobe’s open-source technology that lets Web developers and programmers create Rich Internet Applications that run outside of any Web browser. This Visual QuickPro Guide teaches everything you need to know to begin creating applications that combine the rich experience of a traditional desktop application with the power and reach of the Internet. The book uses a visual, step-by-step approach and covers all the fundamental AIR concepts, without the fluff, confusing segues, and technical jargon that bog down so many other computer books. Author Larry Ullman has a well-earned reputation for writing books that are accessible, easy-to-follow, and, above all, useful. This book focuses solely on developing AIR applications using HTML and JavaScript, although formal knowledge of JavaScript is not required.
PHP 6 and MySQL 5 for Dynamic Web Sites-Larry Ullman 2009-05-27 It hasn’t taken Web developers long to discover that when it comes to creating dynamic, database-driven Web sites, MySQL and PHP provide a winning open source combination. Add this book to the mix, and there’s no limit to the powerful, interactive Web sites that developers can create. With step-by-step instructions, complete scripts, and expert tips to guide readers, veteran author and database designer Larry Ullman gets right down to business: After grounding readers with separate discussions of first the scripting language (PHP) and then the database program (MySQL), he goes on to cover security, sessions and cookies, and using additional Web tools, with several sections devoted to creating sample applications. This guide is indispensable for intermediate-to advanced level Web designers who want to replace their static sites with something dynamic. In this edition, the bulk of the new material covers the latest versions of both technologies: PHP 6 and MySQL 5. The book's publication date is likely to beat the official release of PHP 6, making it one of the first books available on the subject.
Unity in Diversity and the Standardisation of Clinical Pharmacy Services-Elida Zairina 2017-12-22 Unity in Diversity and the Standardisation of Clinical Pharmacy Services represents the proceedings of the 17th Asian Conference on Clinical Pharmacy (ACCP 2017), held 28—30 July 2017 in Yogyakarta, Indonesia. The primary aim of ACCP 2017 was to bring together experts from all fields of clinical pharmacy to facilitate the discussion and exchange of research ideas and results. The conference provided a forum for the dissemination of knowledge and exchange of experiences. As such, it brought together clinical pharmacy scholars, pharmacy practitioners, policy makers and stakeholders from all areas of pharmacy society and all regions of the world to share their research, knowledge, experiences, concepts, examples of good practice, and critical analysis with their international peers. This year also marks the celebration of 20 years of ACCP. Central themes of the conference and contributed papers were Clinical Pharmacy, Social and Administrative Pharmacy, Pharmacy Education, Pharmacoeconomics,
Pharmacoepidemiology, Complementary and Alternative Medicine (CAM) and a number of related topics in the field of Pharmacy.

Bass-Ackward Business-Steve Beecham 2013-02-08 Are you tired of going to networking meetings, cold calling, buying leads, or knocking on doors? Would you like for all of your customers to believe you’re the greatest thing since sliced bread and never question your cost or abilities? What if you had a proven method for making business come to you? If you’re looking for a revolutionary way of doing business, then this book is for you. Steve Beecham has created a never-ending referral machine. People want to do business with him because he sincerely cares about them. He helps customers with their personal needs—promoting their areas of expertise to others within his village—and they love him for it. When you follow Steve’s simple yet revolutionary approach to building your business, life becomes more enjoyable and wealth-building opportunities present themselves freely. Your world comes alive and it becomes fun to meet new people. Steve has learned that it can be highly profitable to simply spend all your time caring for other people in your “village.”

The Clothes Book-Dorling Kindersley 1999 Being able to get dressed on their own gives children a major sense of achievement. This book features children wearing a variety of outfits or accessories, each with a different fastener or interactive novelty: a zipper to do up a raincoat, velcro to fasten an umbrella, a bow to tie up a dress; a button to fasten dungarees, a teddy to take out of a rucksack and a toothbrush to find beneath the flap of a pocket. The real zipper, bow, velcro and button allow children to practise hand and co-ordination skills.

The Birdwoman’s Palate-Laksmi Pamuntjak 2020-02 In this exhilarating culinary novel, a woman’s road trip through Indonesia becomes a discovery of friendship, self, and other rare delicacies. Aruna is an epidemiologist dedicated to food and avian politics. One is heaven, the other earth. The two passions blend in unexpected ways when Aruna is asked to research a handful of isolated bird flu cases reported across Indonesia. While it’s put a crimp in her aunt’s West Java farm, and made her own confit de canard highly questionable, the investigation does provide an irresistible opportunity. It’s the perfect excuse to get away from corrupt and corrosive Jakarta and explore the spices of the far-flung regions of the islands with her three friends: a celebrity chef, a globe-trotting “foodist,” and her coworker Farish. From Medan to Surabaya, Palembang to Pontianak, Aruna and her friends have their fill of local cuisine. With every delicious dish, she discovers there’s so much more to food, politics, and friendship. Now, this liberating new perspective on her country—and on her life—will push her to pursue the things she’s only dreamed of doing.

Engineering Catalysis-Dmitry Murzin 2013-06-26 With well over 90% of all processes in the industrial chemical production being of catalytic nature, catalysis is a mature though ever interesting topic. The idea of this book is to tackle various aspects of heterogeneous catalysis from the engineering point of view and go all the way from engineering of catalysis, catalyst preparation, characterization, reaction kinetics, mass transfer to catalytic reactors and the implementation of catalysts in chemical technology. Aimed for graduate students it is also a useful resource for professionals coming from the more academic side.

Prom and Prejudice-Elizabeth Eulberg 2011-01-01 From the much-buzzed-about author of THE LONELY HEARTS CLUB (already blurbed by Stephenie Meyer, Lauren Myracle, and Jen Calonita), a prom-season delight of Jane Austen proportions. It is a truth universally acknowledged, that a single girl of high standing at Longbourn Academy must be in want of a prom date. After winter break, the girls at the very prestigious Longbourn Academy become obsessed with the prom. Lizzie Bennet, who attends Longbourn on a scholarship, isn’t interested in designer dresses and expensive shoes, but her best friend, Jane, might be - especially now that Charles Bingley is back from a semester in London. Lizzie is happy about her friend’s burgeoning romance but less than impressed by Charles’s friend, Will Darcy, who’s snobby and pretentious. Darcy doesn’t seem to like Lizzie either, but she assumes it’s because her family doesn’t have money. Clearly, Will Darcy is a pompous jerk - so why does Lizzie find herself drawn to him anyway?

Circle Protractor-Wright Group/McGraw-Hill 2001-04-01 Vacuum Cleaners-Elaine Marie Alphin 1997 Discusses the history and technical development of the vacuum cleaner, from the first carpet sweepers of the nineteenth century to twentieth-century improvements. Biomaterials and Biomedical Engineering-W. Ahmed 2008-01-05 Biomedical engineering involves the application of the principles and techniques of engineering to the enhancement of medical science as applied to humans or animals. It involves an interdisciplinary approach which combines the materials, mechanics, design, modelling and problem-solving skills employed in engineering with medical and biological sciences so as to improve the health, lifestyle and quality-of-life of individuals. Biomedical engineering is a relatively new field, and involves a whole spectrum of disciplines covering: bioinformatics, medical imaging, image processing, physiological signal processing, biomechanics, biomaterials and bioengineering, systems analysis, 3-D modelling, etc. Combining these disciplines, systematically and synergistically yields total benefits which are much greater than the sum of the individual components. Prime examples of the successful application of biomedical engineering include the development and manufacture of biocompatible prostheses, medical devices, diagnostic devices and imaging equipment and pharmaceutical drugs. The purpose of this book is to present the latest research and development carried out in the areas of biomedical engineering, biomaterials and nanomaterials science and to highlight the applications of such systems. Particular emphasis is given to the convergence of nano-scale effects, as related to the delivery of enhanced biofunctionality.
